

# Crunchbase List Filter Documentation

## **General:**

- You must select an All Institutions File, Crunchbase File, Output Folder, and enter a filename for the program to work correctly

## **All Institutions File:**

- The file should only be 2 columns (Legal Name, Website)
- Must be .csv extension

## **Crunchbase File:**

- The file should be 11 columns, ordered as:

Org. Name, Org. URL, Industries, HQ Location, Description, Founders, Website, Total Funding Amt, Currency, Total Funding Amt (USD), Last Funding Type

- Must be .csv extension

## **Keywords:**

- Filters out companies with keywords corresponding to their Industry tab
- Separate each word by hitting Enter

## **Output Name:**

- Don't put extension in name, it will automatically export as .csv (i.e. type "output-file" vs. "output-file.csv")
