

Crunchbase List Filter Documentation

General:

- You must select an All Institutions File, Crunchbase File, Output Folder, and enter a filename for the program to work correctly

All Institutions File:

- The file should only be 2 columns (Legal Name, Website)

Crunchbase File:

- The file should be 11 columns, ordered as:

Org. Name, Org. URL, Industries, HQ Location, Description, Founders, Website, Total Funding Amt, Currency, Total Funding Amt (USD), Last Funding Type

Keywords:

- Filters out companies with keywords corresponding to their Industry tab
- Separate each word by hitting Enter
